

7/7/76

Dear Rod,

You'll talk to Donald so one letter ought to do for both.

When Bill Dick was here he asked that we send Donald the charges on the phone calls he made. Lil is getting used to her new typewriter but I think you can make it out.

On this I hope we can get the money end straightened out. Donald promised me \$100 for a story you did not go for. Then there is for the lead in UFOs. There remains what Dick is to have confirmed from the past - where I was to have gotten two checks, each for \$300, all I remembered was one check. Lil went over this with you. The two had been combined in one for \$500 and there thus remains \$100 due on that.

The enclosed is from a liberal effort to start a news weekly. They put me on their mailing list.

What I think I'll never understand is what constitutes simplicity for the Enquirer. I thought the CIA-Zapruder story was a very simple one for the subject but it appears not. However, I'm hoping I've come up with what you were looking for and someone went after without using me: what Perry actually said. How would a transcript of his actual words do? I'm getting it and it says what I said and say-front entrance.

If there is interest in a CBS story, as I think there once was, drop in next time you are around. I think I have a live one.

John was here yesterday. He appears to be exactly as you said.

Best,

P.S. Although I think I've been their strongest responsible critic I have no trouble defending the FBI and the CIA from the Schweiker report.

Another angle on the Church committee and mind-bending: what the Church report suppressed. An entire appendix of documents the report promised would be printed. They are not. I have some, as you know. If John does not use this, remember it.
