Mr. Bill Dick
The National Enquirer
600 South East Coast Ave.,
Lantana, Fla. 33462

Dear Doer of the Impossible,

Thanks for being able to do what I'd been lead to believe is impossible. I can imagine the situation you had and that it may not have been very easy.

With each delay in preparing the book for printing I become more concerned with what comes back for past experiences. These are not usual experiences and I hope you never have them. They repeat themselves with me. There have been numerous cases. When I consider the potential of this evidence, of which you have expressed interest in part only, for those who do these dirty works the situation is enough to provide inspiration. So, I do appreciate your saving what might have been a had trip.

The master of the book includes many small pieces of corrections waxed on. I am afraid to handle it without need for fear one or more will fall off. The one time I do expect to have to handle it will be when the negatives are shot. Beginning then I could xerox it if you'd like. You may find more in it and this would be the one way to be able to use it before the book is out. "Out" doesn't mean that much with me because I won't have normal commercial distribution. This is where your telling people where and how to get it can mean something. (As of now it looks like I'll have to get \$10.00 for the book plus 75¢ for insured mailing.)

I hate having to do the mailing and all it requires because it prevents working on other books already researched and because it seriously reduces the time I can devote to ransacking those 300 cubic feet of files. But it is the only way.

Once you decide what you are going to use I'd appreciate a copy so I can after your use see if I can arrange for the use of other parts. I have an idea from the documents in which you expressed interest. I have had a feeler from 20th Century-Fox and I would like to make some efforts abroad. If your promotion people are going to want me to do any work then I do have to know what parts you have used. (If they have not tried it, except for TV this can all be done by phone. I've not made a single personal appearance on WHITEWASH IV, not placed a single ad, and by radio by phone have sold enough copies to pay off 100% of the printing and distribution costs and the book is selling OK after a year. In every case the radio station placed and paid for the call. I can also help them in other ways, including in reaching many of the college radio stations without any work on their part. Or cost.)

Enclosed is a carbon of part of the use I made of that RFK transcript I sent you. I'll not take your time now for explanations but if you want to know more about the meaning and possible stories in it we can discuss it. One that may or may not be an Enquirer story is the secret proof that in major crimes and in these political assassinations the last consideration is solving the crime, the next is hiding all the evidence possible and the first is in getting a conviction or what can be called a "solution." There is much evidence not mentioned in these transcripts that was not used and was destroyed in the RFK/Sirhan case. Yet this one-sided hearing was, ostensibly, to preserve the evidence.

Thanks and best regards,
