Dear Bill,

If you haven't finished your Sarah Jane Moore story and haven't heard this one you might ~~want~~ <sup>want</sup> to phone Larry Bensky at KPFA, Berkeley, Ca., to whom I've heard she tipped the Hearst arrest. Just before it happened, I'm told.

Reminders: I was to have received \$600 for the two stories on which Rod came here regardless of anything that followed. I did receive the costs of the xeroxing back but not this \$600.. I can use it, please.

The notice that the work comes from my coming book is important to me and I think in time it can be of some value to the Enquirer. I haven't finally decided on the subtitle so please refer to it as Post Mortem, which is the title. My route number has been changed. It is now- and this is the full address - Route 12, Frederick, Md. 21701. The price is \$10, with insured mailing 75¢.

There is little doubt that the stuff you have bought is going to be used in Congress and by the Church committee. Someone made an inquiry of me this past week on behalf of a member of the subcommittee on this subject. I'll be giving them more. For all practical purposes this book does their job for them. If the Enquirer plays it straight, my way and with me it has a very good chance of getting or sharing the credit for breaking open the crime of the century. As much as one can predict political developments I think this is true.

CBS is up to a big ripoff, not legit. reporting or investigating. The suit they filed for evidence in the Ray case is of this nature. We successfully opposed it. It was a very prejudicial thing, poorly done by expensive counsel so we had no choice but to oppose it. I immediately cancelled my scheduled appearance on the special. It also made me think and there is a clear case they they are engaged in this large ripoff if that kind of thing interests you.

There is continuing interest in the CIA exposes and there is the unexposed. I have two things: an unexposed "front" used from spying on what citizens say about political matters and leads to what may turn out to be the biggest one yet. It is good enough leads for me to have included this in a book I've written but not been able to return to. It involves names with sensational connotations. It is because these are so topical and the Church committee hasn't tumbled to them yet that I tell you prior to your letting me know whether or not you'll be able to come here. I don't know how your owner feels but I know from my own past that some owners just love to be used responsibly in the Congress.

I don't yet know the schedule on the book because we are only two people. While we work a long day there is very much to do. I spent the money you were to have sent getting some help on the appendix, which will be enormous. The book is 660 pp. I have made printing arrangements and the big hangup now is getting the index done. I have other documents I'll print to fill out the space.

While I have my own interests in knowing when this story will appear if you will want any kind of help on promotions I'm going to have to schedule my work for it, so please let me know.

Hastily,  
Harold Weisberg
