Oswald was featured recently as a TV subject: A CIA agent based in Miami, and sent to Russia to infiltrate, but known to the KGB.

They "Turned" him, as it were, in a way then somewhat undetectable, I take it, and then used him as part of the KGB assassination team that killed JFK. You can see the point of it: The discrediting of their primary enemy, the CIA. The matter was, indeed, covered up by the US authorities, but now you can see why. Still, the work was done, and the CIA was discredited in Washington, and Congress listened to their knowledge no longer, such as matters of long-term takeover of the US, or such long-term work of espionage within government, etc.

You might note only the other day on TV, the Martin Luther King assassination was shown to be similar: Since the US Army Special Forces was used to infiltrate his movement, they then could be set up with having shot him, but again it all kept secret for precisely 25 years.

I, whether you wish to believe it or not, was told the 2nd para. in 1977, and told to tell the world at that same marker date, a few years back. The material, I understand it, has also since been declassified since then, too. I was told much, some of it that we would be trying, at this point in time, to try and make good their known disinformation buz. about turning into a part of the world community. What with the amount of isolation I've endured, no one could have made me make it up.

(I find it remarkable that the KGB chose to strike first the CIA and then the US Army Intel, instead of the CIA and then FBI. It mirrors their own perception of their own system of power: First the KGB (The CIA equivalent) and then the GRU (Army Intel.))

I was told that KGB Chief Kryuchkov was the man who has ordered the long-term assassination of all US leaders. They think of the Kennedy family as our "Royalty," and so they all had to be hit. Only Sen. K., as a "Liberal," has been spared. It is my understanding that the first wave of killings would involve anyone who could lead the US people. That there was no avoiding their methodology, because they had already infiltrated at the highest levels, the FBI, State, Congressional Oversight Committees, etc. The second wave is eminent, directed at lower-level management types, things like business leaders, and suchforth. I understand this may involve plastique/silicone implants in persons, combined with "Sleeper" methodology. There've been two cases I've noted on news.

I was told we would accept him in extradition for a quiet trial, if possible. I was given a whole lot of things to remember, and told to tell the world about them, come hell or high water. So you can see, I know how the hypnotic repression bit works. I didn't come to Maui for fourteen years to hide my head in the sand on a lark. This place is a cesspool of Localist, racist insidierism, fraud and un-American corruption.

I was told that the Other Side had long-term goals for World Socialism, like their 5-year plans but longer. Apparently, some of our spies have done well, too, and had those details. I was told in '77 about the Coup time frame of August 1991, and how they would use it to try and lower our guard. How they would claim to want to become Capitalist, so that they could sucker cash from us. That, inevitably, Kryuchkov's intention was to spend their GNP into the ground to finance his agents within our own country, and in the end, leave Russians the choice of joining the military or starving.

I was told of their going to lure us into "Other Vietnams," etc. I was told the details of their staged plans to infiltrate drug production, by class, region, and by type. Of all sorts of planned horrendous sabotage.

In some very long sessions, I was given much info to remember, and tell in the privacy of the Duesseldorf Consulate and German facilities. Part of it, too, was to test their Pavlonian methodology, and

perhaps prove to those of our own that not only could it be done, but just how well.

Aside from remembering and telling, I also have subconsciously acted in acts of military training - Fear not, innocuous things with a typewriter.

Still, one can project that to Oswald's behavior...

I sense that you are no ordinary person, or I would not be telling you these things. While it's nothing I haven't shouted from a soapbox, I am also quite certain that I have accomplished another of my goals: The attentions of the authorities. One thing they don't like walking away from is classified material. I await their contact, any day, now. The only thing for me really is that I would not trust Hawaii State authorities.

Do you not think it can be done? Then why is Waco doing it now, right during the Brady Bill, and furthermore? Why am I surfacing based upon that timing, as well? I find it remarkable that
cont...
