

Pentagon Papers Reveal Pres. Kennedy Had Pres. Diem Assassinated

From NSRP "The Insider" July 1971

During the early 60's South Vietnam was headed by Ngo Dinh Diem. As President, Diem had the support of the huge Catholic population which fled North Vietnam after the Communist take over. He was successfully running the nation and there was no need for massive U.S. military intervention at the time.

For some reason the Kennedys were not satisfied with Diem's administration. They therefore ordered the CIA to initiate a plan to overthrow President Diem. At a highly secret meeting of the National Security Council on Sept. 17, 1963 John F. Kennedy ordered the CIA to put "escalatory pressure on Diem."

According to the secret Pentagon papers the following order went out to Ambassador Henry Cabot Lodge in Saigon: "We should encourage the coup group (of dissident generals) to fight the battle to the end and to destroy the palace if necessary to gain victory."

With the direct support of U.S. Army advisors and with CIA secret direction President Diem was toppled in a bloody coup. Both Diem and his brother were assassinated in their palace at the time of their capture.

The ferocity of the U.S. attack on Diem can be gleaned from the Pentagon papers which quote Kennedy and Roger Hilsman to order our forces in Vietnam to see to it that "Unconditional surrender should be the terms for the Ngo family. Diem should be treated as the generals wish."

Yes, President Diem was brutally assassinated by the Kennedy rulers of America. Long time readers of The Thun-

derbolt know that we charged the Kennedys with the assassination of Diem over four years ago. We were the first to expose these truths now carried in all the dailies. It

Mr. De Toledano says the above report was checked out with the highest officials in Washington and they all verified it.

Another plot according to De

was indeed a fitting end for both John and Bobby Kennedy to meet their death in the same manner they administered to President Diem. It is almost impossible to believe that some warped minded people in America would like another ruthless Kennedy to become our next President. Perhaps these revelations will help to put the nails in his coffin.

OTHER CIA PLANNED ASSASSINATIONS

On July 1, columnist Ralph De Toledano revealed that back in the early fifties the Central Intelligence Agency decided that it was time to assassinate President Chiang Kai-shek on Taiwan. They felt this would open the way for Mao Tse-Tung to take over the island and would solve the problem at that time, as to who would hold China's seat in the United Nations.

The CIA sent an assassination team to Taiwan which spent \$5 million bribing officials to set up the "hit" and providing a cover for the operation. Chiang Kai-shek's own intelligence agents foiled the plot by revealing it to patriotic leaders in Washington.

Toledano was to assassinate President Syngman Rhee of South Korea. It was later stopped by the National Security Council.

It is also well known that the CIA brought down the anti-communist regime of Fulgencio Battista in Cuba and sent money and arms to Fidel Castro. There would be no communist base 90 miles off our shore today in Cuba if it were not for the CIA. Because America has been saddled by a long list of left-wing liberal Presidents it has been impossible for our nation to stop the spread of world communism.

In fact we have actually been aiding in its growth. This mainly because of the unending appointments of unreliable individuals with pro-communist backgrounds. They permeate every branch of government as was well documented by the courageous late senator Joe McCarthy. In fact it is the view of this editor that Sen. McCarthy was assassinated by either CIA or a similar evil agency. His death was marked by many baffling aspects which are still subject of investigation by an organization in Milwaukee to this day.
