

1/5/70

Dick, Gary,

There have been two Georgia shootings that seem to be related and interest me much. The first was at Sandersville where, imagine! a white man was shot outside the home of a black and charges have been dropped, and the sheriff's shotgun (since "stolen") is said to have been used to shoot the woman.

The reports available to me are entirely inadequate. I am very interested in the identity of this white. As you know, there are a number in Georgia of more than casual interest to me.

I have gotten but the single issue of The Councillor and no response to a letter of inquiry. I do not get Thunderbolt. However, it is possible your copies may be reaching you and this (these incident(s) may be mentioned. Thus, I write.

Best regards,
