Subj: Inquiry of House Select Committee on Assassinations
concerning verbal orders issued by the Surgeon
General on or about 22-23 November 1963

Ref: (a) NATNAVMEDCEN ltr NNMC:C02:bsz of 16 September 1977

1. On or about 22-23 November 1963, the Surgeon General issued verbal orders to various naval personnel, military and civilian, who were involved with the autopsy of President John F. Kennedy at National Naval Medical Center (NNMC). These personnel were ordered to discuss with no one the events connected with their official duties on the evening of 22-23 November 1963. The verbal orders were later confirmed in writing.
2. Reference (a) reported that several of the personnel who were recipients of these orders had been requested to provide information concerning the autopsy of President Kennedy to the House Select Committee on Assassinations. Reference (a) also advised that the Committee was experiencing difficulty in obtaining information from the personnel involved in the autopsy as a result of the 1963 orders issued by the Surgeon General.
3. The Bureau of Medicine and Surgery has been advised that the House Select Committee on Assassinations has been informed by the Department of Defense that the Department cannot rescind the orders in question. All personnel who received these orders and are still assigned to NNMC should be advised to immediately notify BUMED (Code 003, telephone 254-4388) if they are requested by the Committee to provide information concerning the autopsy of President Kennedy. Personnel who are no longer assigned to NNMC but who make inquiries to NNMC about these orders or indicate that they have been requested to provide information about the autopsy should also be referred to BUMED.

U.S. House of Representatives
3331 House Office Building, Annex 2
Washington, D.C. 20515

Dear Mr. Blakey:

Your letter of October 4, 1977 to Adm. Kinnear requests certain information with respect to the autopsy of President John F. Kennedy. All of the records, notes and other materials related to the autopsy were delivered by the Navy to the White House physician, Dr. George G. Burkley. The Department of Defense has no such documents or materials in its possession at this time.

The record with respect to the autopsy is complete and has been preserved intact. Under these circumstances, ~~the Department cannot rescind the order to personnel who were involved in the autopsy prohibiting disclosure of any information about the autopsy acquired in the course of their official duties.~~

Sincerely,

Deanne C. Siemer

SUMMARY OF EVENTS CONCERNING CONTACTS BETWEEN
HOUSE SELECT COMMITTEE ON ASSASSINATIONS (HSCA)
AND NAVY MEDICAL DEPARTMENT

1. On Friday, 16 September 1977, LCDR Broach received a letter from CO, National Naval Medical Center (NNMC), addressed to CHBUMED (Tab "A"). This letter advised that Mr. D. A. Purdy, Staff Counsel, House Select Committee on Assassinations (HSCA) had contacted NNMC requesting assistance in obtaining testimony from naval personnel who were involved with the autopsy on President Kennedy. Apparently some of the naval personnel were refusing to provide information to HSCA because they had received letters from their commanding officers confirming previous oral orders from the Surgeon General that they were to discuss with no one the events connected with their official duties on the evening of 22-23 November 1963 (the date of the Kennedy autopsy).
2. On 16 September, LCDR Broach called CAPT Miller, Director of Administrative Services, NNMC, to determine if NNMC had anything in its files concerning the background to the above order. The NNMC files contained no pertinent information other than copies of the letters to the naval personnel confirming the oral orders. CAPT Miller advised that more information might be obtained from VADM George G. Burkley, MC, USN (Ret.), the White House Physician in 1963, and RADM Edward C. Kenney, MC, USN (Ret.), the Surgeon General in 1963. LCDR Broach was unable to make contact with either VADM Burkley or RADM Kenney on 16 September.
3. On Thursday, 22 September, Mr. Purdy called LCDR Broach who was on TAD in Quantico, Virginia. Mr. Purdy said CBS News had informed the HSCA that they had seen a copy of a 1963 letter from the Surgeon General to CDR J. J. Humes, MC, USN, now retired. CDR Humes was the Navy physician in charge of the Kennedy autopsy, and the letter in question allegedly gave CDR Humes various directions as to how he was to handle the autopsy report and other matters associated with the autopsy. Mr. Purdy said he had as yet been unable to locate a copy of the letter in the Archives records on the autopsy and wanted to know if BUMED had a copy in its files. LCDR Broach advised Mr. Purdy that BUMED files would be checked for the letter to CDR Humes. LCDR Broach also advised Mr. Purdy that BUMED was attempting to determine the background to the order regarding comments by naval personnel involved in the Kennedy autopsy.

4. On 22 September, VADM Burkley called BUMED and advised CDR Thompson, Executive Assistant to the Surgeon General, that he, as the White House Physician, had given the order for the naval personnel not to comment on their duties involving the autopsy. RADM Kenney's role in the transmission of this order is still not clear.

5. On 27 September, LCDR Broach called Mr. Liebman in OLA in order to have Mr. Purdy rechannel HSCA inquiries through OLA. On 28 September, CDR Averna, OLA, and LCDR Broach discussed Mr. Purdy's contacts with BUMED/NNMC. OLA will handle all future contacts with Mr. Purdy and HSCA.

6. Neither BUMED nor NNMC files contain copies of the autopsy results, allied papers, or materials associated with the autopsy. Letters in BUMED files (Tabs "B," "C," and "D") indicate that these materials were turned over to the White House Physician, VADM Burkley, after the autopsy was completed. The role of the Secret Service in the transmittal of the documents, as mentioned in Tab "D," is not clear; however it is likely that the Secret Service probably delivered the materials from the autopsy team to VADM Burkley. More information is being sought in this regard. NNMC files contain copies of the letters to naval personnel confirming the previous oral orders from the Surgeon General restricting their discussion of their official duties in connection with the autopsy. These letters have been requested from NNMC and will be forwarded on receipt. Neither BUMED nor NNMC has a copy of the Surgeon General letter to CDR Humes concerning his handling of the autopsy report and other related matters.

To: Chief, Bureau of Medicine and Surgery
Subj: Request from the Select Committee on Assassinations
of the House of Representatives for rescission of
a verbal order issued by the Surgeon General,
United States Navy, on or about 22 November 1963

1. Mr. Donald A. Purdy, Staff Counsel for subject Committee advises that the Committee is experiencing difficulty in obtaining information from personnel who were on duty and involved with the remains of President John F. Kennedy at this Center on 22 and 23 November 1963. The difficulty arises from the refusal of these personnel to provide information to the Committee because they were advised in writing as follows by the Commanding Officers, Naval Hospital, Naval Medical School and National Naval Medical Center:

"1. You are reminded that you are under verbal orders of the Surgeon General, United States Navy, to discuss with no one events connected with your official duties on the evening of 22 November-23 November 1963.

"2. This letter indicates official notification and reiteration of those verbal orders. You are warned that infraction of these orders makes you liable to Court Martial proceedings under appropriate articles of the Uniform Code of Military Justice."

The notification to the civilians involved makes reference to disciplinary action "pursuant to applicable laws, regulations and instructions" vice the Uniform Code of Military Justice.

2. These letters were addressed:

a. By Commanding Officer, Naval Hospital, National Naval Medical Center, Bethesda to:
