

Dear Bill,

6/29/54

You've heard little because I've been busier. Yesterday much of the day was taken up with a visit from the book editor of the Pittsburgh Post Gazette with an intern. He is doing a story on me, his idea. I tried without success to switch him to NA! but I hope that after he was here he may do that. Two days earlier his photog. She came early and did her work on the way to a photog's convention of some kind. We were favorably impressed by all three. And I'm back in p.t. Sping more and that adds to the time it takes me to get home the o three days. and I'm been Mailing Mailer. Close to the end of what I'll write on his book. I plan to add Senator Russell Dissents and what was gutted from Case Open.

No word from Lesar on when the press conference will be,

~~Some~~ Small world that the business college librarian wanted to meet me.

I understand that Cooper and JFK were ^{good} friends. What you report about Cooper's kindnesses does not surprise me. He had that kind of reputation.

That old documentary with Epstein ^{must} have had a connection with his very bad, really ignorant and stupid book, Legend.

I'm sure from my impressions of him you'll find he never married.

In what little time I have for reading I'm rereading Sherrill's The Accidental President. If you can find it second-hand, good read and informative.

Back to work,

est,

Harold
