Dear Harold:

I hope your air conditioning is working. It is so hot here it is almost unreal. Thank goodness I had the foresight to complain about my hot office a ~~couple~~ couple of years ago and they rebuilt the ducts. We have such good AC at the office that it almost keeps me awake. But when you go outside, it is hot. So I am really looking forward to sitting in the grandstands at Michigan for the stock car races this weekend. But at least I will have beer.

Things have been going well. Betsy is teaching part time at a nearby business college. Her father just got back from a solo 1200 mile trip to the upper part of Michigan, Drummond Island. So I guess he is recovering. I think I am developing carpal tunnel syndrome from sitting at this cheap table and chair. I may have to sue myself!

By now I guess that Gerry G. and Dennis M. have made their speech. I am very proud of them. Hope it went well.

Don't know if you caught this, but in the McVeigh case, one of the ways they linked him to the case is his use of a phone debit card he bought through the Spotlight, the Liberty Lobby publication. According to the NYTimes, the indictments were drawn up broadly, so as to leave room for another bomber. It appears that there had to have been at least one more guy involved. One of the more fascinating aspects of the case is that Fortier, who has pled guilty to related charges involving stolen guns et al, was complaining thru his attorney that the details of his plea bargain were revealed to the press through the FBI. Although I think the FBI has done a pretty good job in this case, and I don't think they are involved in any big govt. conspiracy, they have played the press like a fiddle. Makes one wonder- I guess they still like to use the press to their advantage.

Hope you and Lil are doing well. I think about you two all the time. I don't think anyone else but you two could have done all that you have done. And as you know, I am not hesitant to criticize you or anyone else if you are wrong, or I think you are. I still have to laugh at myself when you made me look up the Ragano file on whether the Mafia was involved. You got me there!

One thing that I think about is how desperate the killers of Kennedy to get rid of him. I think one of the strongest arguments for your point of view is that it is a damn desperate act to get two or more gunman to kill the President. Does seem to indicate a strong ideological point of view. Perhaps one day you will be proven correct, but I doubt it. I think you are correct, but will it ever be proven.

Going home. I may write you tomorrow, have a couple things to send you.

Bill
