Dear Harold:

I note in your letter to Janet Reno that you note your executors may make a FOIA request. Now, who are you referring to?

DID WE DRAW UP A POWER OF ATTORNEY FROM YOU TO LIL AND LIL TO YOU?

Please think about this and get back to me. Useful in case of illness.

I think your letter to Reno was kind of rambling, although I once promised to quit criticizing you or writing until I had written a few books. Why don't you tell me exactly what you want and I'll write, as your attorney, to Reno with a short, specific request.

I would love to see the annotated Whitewash myself!

On a lighter note, I have always had the feeling that some people are having more fun than ME. This article about Dole's advisor is the perfect example. It got much less press than Dick Morris. At least Morris was only having sex with one person. These Republicans are swingers!

I note that Nov. 22 is on a Friday this year. I will probably write Jane Norris and see if she wants to have you on the show this year, if it is OK with you.

On Nov. 22, I always want to go hiking or something and it seems I always get to work on something that doesn't interest me. I think 1:30 Eastern time on that day is a good time to cross oneself, even if you are not Catholic. The day that sealed the fate of millions of Asians and Americans.

The article on LBJ is quite interesting.

I must go, to take the dog to the vet. Cut her foot. Good excuse to get off early.

Say HI to Lil. I hear Reno is resigning after the election. She has some health problems.

Bill, who always has helpful advice!

*Peace!*
