Dear Bill,

I'll tell you about our Thanksgiving, which was a good one. Hostly. Nicole invited us for Thanksgiving dinner with just her. Lil accepted. So we had to decline the invitation from Earl Slater and his wife. We got to Hana's and Micole was obviously embarrassed. The turkey was not cooked. So, we went ahead with the rest of it and it was all fine, three green vegetables, two kinds of potatos, enfugh of each of the fight for a large family, and eranberry sauce. The Micole insisted that we take the large hen turkey and all the leftovers home. We did, Lil finished the bird in the microwave, and decided that there was nothing wrong with the thermostat on Micole's stove, on which she never uses the over, but that she had stuffed the bird with too much stuffing. That kept it from cooking inside. So we have all that fine turkey for TV dinners and for sandwiches, etc. Getting it off the bone was a little much for File.

12/3/96

Hard

Hope your holiday was a fine one, for all of you.

I gave Ginocchio a disk of Case Open when I got it. He copied it and gave the one he made to "ennis. I think both have printouts. I know they did.

Like you I can't keep up with who has what. Including myself! Glad you like the "pilogue to Waketh. Do you think it worth getting copies to those who have it?

I do not remember if Earl loaned the copy I loaned him to Hirsh Goldberg last week. He may have. We got a very good reception there. Remains to be seen of Goldberg can figure a handle.

Great idea if you can make a speech on the JFK case. That is the basic way if informing people. If we had no reaction to the Norris show.Including from you. She seemed to react very well to it. I think I sent her some of the documents to which I'd referred. Hay I suggest that if you make a speech you arrange in advabce for those present to be able to get copies of the documents you use from the organization to which you speak? That can be very effective, I've found. And appreciated.

Thisse making the document dry impressed Wrone favorably. They'bl be here in two weeks and I'll know more.

Dave also had trouble with a disk from Dennis. Suggest you both ask or inform him. Dave said it came out Greek. He made me a dub of the <u>case Open</u> disk and a number of chapters will be used in the ⁴⁴ailer work.

If you can ship any surplus white bass to our pond that would help the overpopulation of Comets ¹ put in, forgetting any preditor! But we've never seen a deadone. "il attributed that to the snapping test turtles.

'ould the 'pilogue be included in Best to you all, a binding if that was desired or would that make it took thick for a binding like that?
