

Dear Bill,

12/8/96

The letter you refer to in your 12/5 never got here. I'd remember both the Norris part and that on Hornung. And I'm sure I'd have told you that if I'd had the facilities a similar operation by Edward Bennett Williams when he represented us, of assigning that staff member to getting draft deferments for Redskins, led to malpractice. Or, I had special ways of remember such a letter.

On that call with nobody on the calling end, that comes and goes here. Times when it is regular, times when there are none. We have q called ID and all those calls are out of this area. It can be a nuisance at time.

Yes, I got a ~~g~~ call in which parts of the sound track of Shane were played to me beginning 2 a.m. or a little later. I taped it and a nearby police department made a voice print of the caller but it never happened again. I've not been in a position to tape calls since at least the Bell breakup years ago. When I took that tape to the local police in the end I wound up with a guy who could fix our Bell phone for a direct tape. Better tape quality.

I thought I had named you o~~j~~ the Norris show. I know I did to her producer.

Glad to know that a larger heater would blow fuzes so isn't available. I'll have to think of a different solution. I did have the anti-freeze changed ~~to~~ years ago. And a new thermostat put in last year.

I think that if Jerry had gotten one of those Cat hats he'd have worn it or told me about it. Did not reach him yet.

My seminar on the King case with his class last week went well. He liked it.

We have a little of our first snow left. Forecast for last night, which is this night at before 4 a.m., did not get any. First snow not a bad one for those of us for whom any can be bad. Wasn't too ~~clod~~, either.

I'm working ~~a~~ on a second epiogue for Waketh based on that generals and admirals statement of which I mailed you a copy and suppression of their statement when they issued it. They had to take ads in the Post and Times to get any word of it in. Nothing in WSJ, which I went and got to see. Nor Balt. Sun.

Known as the free press.

-Best.
