3/13/97

From the condition in which you got recent mailings you can conclude, and it would be correctly, that I was both rushing and not taking enough time to think it through.

I've heard nothing from Dexter King and I may not from what Jerry Ray told me, that the family and oliver tone have joined with Bill Pepper in the plans for a movie. Pepper's is not a good book. To credibility in his "soution." He has not botherred to even read the transcripts of the case we put in more th an 20 years ago and that stacks. He had access to all here. I do not know what he looked at but got him a student to get whatever he wanted. Without showing if to me. Free access to all. Him + Men.

I do not use the letternead very often because I've no space for it and move with difficulty when I'm typing. I had a supply in the lower right desk drawer but that means I have to unwind my legs from the typewriter stand, twist, reach and wind it all up again.

I've heard from the Bost on the FBI lebe info I sent but not on King. If what I sent you in the Newman ms., please do send it to fave. I've asked him to send it to Cerry when he has finished with it. I can't now do all that copying and do not know who wants a copy.

Wish I were a speed reader. ily feyes gett slower. Meaning I can move them faster but that means that what Whey read is lost.

Spring is h re, too. Jonquils and other naccissi up a foot or more and other plants, particularly weeds, colling to life. The honfers are back and the mallards are only intermittently. Wild Turkeys seem to have moved in. Then traveel much but seem to come back to roost nights in a particular tree. Fine, we like thatk

In included with my letter to King what I sent the Post. But if King is on the west coast he may not have even seen it. ,

Please let me know what Janice believes shell be able to do, how long it will take and if she wants to. I am andious to get that done, which means also read. If she does not want to do it and believes dt will take her long, by the most remarkable of coincidences we have a local friend also named Janice who is unemployed. If she'd been home I'd have asked her to retype this last chapter and sent you, "ave and Gerry clean copies of it. But to ave time I sent what - had as sook as - could.

Betsy better get used to having contraband scadfals. I/understand they exist at just about all prisons. Remember also I have a Trooper's jacket that Nay got while he was in jail and gave me in Hemphis during the hearings.

> Hard Best.
