Dear "ill,

Reur 6.24, goad, very glad, your father is improvong. Wish I could say that for syself.

6/26/97

I've put the enclosures aside to read when I rest on arising in the a.m. But if \perp knew he'd be here, were he to come when I'm not as eshausted as I am now I'd like to talk to that guy at ADC who believes there was q conspiracy in the King case.

Jerry volunteered to retype what I've titled Bogus Revelations, after the Hall title. I've read and corrected it and today he tokk it back to make the corrections. He has questions about some of the details - included as proof but he believes that \int left little of Hall and that what I wrote will probably be as close to what Whitewash was on the Commission about this board. Which was one of the reasons I used more proofs, all of official origin.

In time there will be ad disk for you and sharry others.

I had not finished that when \perp got the dozen chapters of the <u>Waketh</u> epilogue. I've gone over and corrected only three of them.

Or, I'm staying as busy as I no. can.

We hdd a record-breaking scorcher yesterday, with heavy storms just around us but not hitting us. I did get the car A/X fixed just in time!

If you think that BC guy who believes there was a bing conspiracy would be interested, he'll be welcome if he decides to come if he makes it in the morning. Frankly 1 do not believe that any of the nets will report factually on the crime but how nice it would be if one did! If (with they !! then K (went boundhing -

I do not believe the King family will have learled from this experience. They did not with similar earlier experiences and people. I feel sorry for them. I think I t old you that I wrote Dexter. No response of any kind.

One of the many deer that stay close by dropped two foals within the past week. We like seeing them frisking around.

Best,

facht
