Dear Harold:

A quick letter. I have been involved in threatening my roofer for failing to pay his supplier, resulting in a lien on my home. Writing these idiots and talking to the supplier has taken up all my leisure time today.

I skimmed your most recent letter. I'll write later after I have read the Epilogue to Waketh. I do not intend to send any of your material to anyone without your permission. I was interested in your comments on Dr. Aguilar.

I enclose a Playboy with some comments on JFK by Mr. Ego, Bugliosi. But also, there is an interesting article on Whitehurst and the FBI.

Did hear some interesting UFO stuff. Fox had a special with videos, some faked, some not. Bobby Ray Inman made some interesting comments. 1. He said he would assume that if a UFO is cited over a military base, it is probably a military unit, which is probably true.

There have been some really odd photos over Mexico, with what looks like large floating garbage cans floating over Mexico.

2. Inman says that he would assume these odd objects are really DEA surveillance craft that are released over the Mexican border, to combat smugglers. Since I have seen DEA tethered balloons over the Florida Keys, he is probably right. These pics have been very controversial in Mexico.

Anyway, I am still looking for UFO's. What the hell, it's free!

I shall write later. Note that many of the young ladies in Playboy appear to be silicon enhanced. Which I do not really find attractive. There have been doctors that also offer penis enlargement.

I don't even want to know how that works!!!!
