

Dear Bill,

6/14/98

We had been concerned and we are glad all is OK and that you will be coming next month.

Reur 6/2, the FBI did have a symbol informer in SCLC headquarters. I have forgotten his name. and nothing happened to him. No retaliation.

I've not heard from Gary Webb. I think that what he wrote was straight.

Seems like a great idea for Betsy to get a doctorate! Wonderful!

In your 6/9 you say you are glad the oranges worked out, referring to their replacement. Well, the day after you wrote that I learned that it is not safe for me to use oranges any more. Tangles, grapefruit, tangerines, all OK but not oranges. Among many other things. I think it is the potassium in them but whatever it is, I have the lists. Some not to use, some to use only a little. Kidney failure problems.

When I was hospitalized two years plus ago with congestive heart failure the cardiologist brought in an intensive care specialist who drained my lungs the first time and rushed me to Johns Hopkins the second time, not expecting me to live. After I was home he recommended that I be seen by a kidney specialist but the cardiologist nixed that. Well, on ^{my} annual physical that doctor recommended that I see a nephrologist and I agreed, as I had earlier, and he made the referral. He then told me that dietary adjustments can be important. The one he then mentioned was reducing protein intake. We saw the nephrologist Wednesday and he took all the time to explain all he could think of or we could ask, unusual for today, where they rush you though. We like him. He recommended some tests and while I do not have the results, they've been made. Even already arranged for the consultation with the hospital dietician on the prohibitions.

I've finished the rough draft of what I'll be doing about this newest Posner prostitution. I think I'll title it Whoring with History, with the subtitle, ^{How} ~~How~~ Gerald Posner Protects the King Assassins. Dave retyped the first eight chapters, which come to more than 150 pages. There are 25 chapters, a conclusion, a foreword and an introduction. Dave turned the retyping over to Clay Ogilvie. I have read and corrected what Dave retyped.

After it was reported that the Kings had asked for a commission to look into the King case, I wrote Reno, if I did not send you a copy, and I got no response. I had earlier written Dexter, also no response. I asked Jerry to write Coretta, again no response. And the course they are on they've laid the foundation for another Warren Report. The FBI can knock much of what Pepper claims and that alone can kill the whole idea. Wish I could do more! Or knew the right black. You could get through to one. Best to you all,

Harold
