

WILLIAM L. NEICHTER
ATTORNEY AT LAW
1313 LYNDON LANE
SUITE 115
LOUISVILLE, KENTUCKY 40222
(502) 429-0266

Feb. 3, 2000

Dear Harold, Lil and the McKnights:

You fellows will be glad to know, that as you slept on Jan. 16-Jan. 17, Monday morning, I was out selling your books on national radio!

Joe Arnold had me on his show Sunday night-Monday morning from midnight to 3:30am on WHAS 84 radio, our 50,000 watt station. We had Jerry Ray on for the first hour, and he was pretty good. They have changed their format a little, with a live all night newsman. I repeatedly recommende "The Last Crusade" and "Frameup", as well as Whitewash and Case Open.

I thought I did a pretty good job, we got calls also on JFK and RFK. One caller said I should talk about Mark Lane, who he said had solved the cases of both Dr. King and JFK by blaming CIA and James Angleton. I pointed out that Lane was an excellent attorney, but that I did not think you can prove Angleton was behind both murders.

I was glad to be back on Joe Arnold's show. He is pretty open minded, and it is fun for me. As you may recall, I also do a racing show with my brother Larry, where I am the engine and aerodynamics expert. The only guy in the country who is expert in auto racing and political assassinations!

Arnold did one really neat thing. After I left the show at 3:30 am, he played the entire 25 minute or so Mall speech of Dr. King's, so while I was driving home, I heard the speech. Kind of neat hearing King's voice across the land, talking about little boys playing in the red clay of Georgia, etc. Can be heard in 38 states!

So, anyway, that is my claim to fame!

Hope things are going well for alloof you. We are doing fine, wish it would warm up a little.

I'll try to write a little more often. Kind of gotten out of the habit.

I would imagine that both of you will soon become rich from my shameless selling of your books on WHAS. HA HA!

I may try to line up a speech for Black History month. It looks like next semester, I will have to teach economics instead of history.

Fortunately, I have a pretty good understanding of economics. Self taught. One of the nicest fellows I ever met was Dr. Walter Heller, JFK's chief economist and a close aide. I don't think many historians , even you guys, realize how much our economy was shaped by Heller. One of the first of the modern Democratic economists. Much of our prosperity today is because of policies Heller proposed.

How many economic books do you think Geo. W. Bush has ever read? A frightening question.

Let us hope for warmer weather, and I'll write soon.

Bill

no copy pg 1

tell you, I gave hood out stock of the books I published and more and they have been netting the gross for some months. As result of Jerry's informed persistence they now also have the what - hope is all the records that were in the basement. When I fell from the bottom step and could not get up, unassisted back in 1993 was the last time I was done there. they will have to get in to their permanent hood home before there can be access. and from the incredibly the over here, when all can use our copier, I hope that have some security provisions. My work and correspondence will, I believe, have to be examined to protect hood for petty litigation, not over any legitimate need. You have seen that I am da careful despite my speech and to this date nobody on the Commission or on the Commission staff has written or phoned to complain that it was unfair or inaccurate in anything I wrote about him.

Now for you would like a connection with the Bay sister, Mrs. Parol Pepper, I can make that note. I can't be sure with my exhausted memory I failed to get her a copy of the Posner whoring with history, which she told me over the holidays she would like. Of course pay the cost of you do that. If you are too busy and don't want to, just let me know. Her address is Mrs. Parol Pepper, 2439 Telford, St. Louis, Mo. 63125. She also would like the evidentiary hearings we got as a result of my investigating for the first of his successful habeas corpus proceeding. I also did the investigating for those two weeks of evid. hearings.

Arnold seems to be a nice guy personally. Good touched on that show! If you do it again and if he'd like me on it, give me the date and the toll-free number. Sometimes HAS comes in okay and sometimes it does.

It is after our support time and I put Lil's out before I rushed to do this and my early bedtime the night before the dialysis are more than usually important to me, first to get there in bad weather and then to get home, which is unusual about 11 a.m. Until I can read and correct this, our best to you and to Jetsey and the what - hope continues to be a fine dog you got. Thanks and best wishes,

Arnold
