Dear Harold,  
typewriter has arthritis!

RE Whitewash pictures

Some time back, when I asked you about them, you said you already had given them to Hood. Three years ago, some of them were upstairs in your office. Clay made computer copies with his scanner, of possible shooter and FBI pics of Oswalds' Shirt. Blowup of Oswald in Altgen's pic was not among them, I think.

Always appreciate your kind words. I enjoy doing radio. Try to keep up my contacts with WHAS radio, met their top sports guy this weekend at Kentucky Speedway. Also met AJ Foyt, Al Unser Sr. and Eddie Cheever, past winners of Indy 500.

Turns out sports guy is interested in JFK case of course knows JOe Arnold. Joe is doing TV fulltime, last cacc story was on porno parlor across from Federal courthokuse.!

As you know, I always have wanted to do a documentary on JFK. Missed an oppurtunity a few months ago. A documentary makers convention was in town, including Barb Koppel, who did a pseudo documentary for Oliver Stone on JFK after the movie.

I should have shopped around a resume. Oh well!

Betsy is full steam ahead on her PHD. She did a seminar this past weekend on "How to Be a Better Teacher".

Up last night on Perseid Meteor shower, not too many.

May make contact with a UK radio show. It takkles the hot ones, claims aliens use East KY Dewey Lake as UFO base. I always thought it was under the polar Ice caps or Bermuda triangle. Surprisingly, I have met a number of serious people who have seen UFO's in Jefferson County here, five if you count the balls of light the police chopper chased a few years ago.

I'm trying to wrap kup some cases. I am going to KDallas in September. To see Dealey Pla za.

One of the more serious UFO guys was on the Art Bell AM coast to coast show. KClaims the Werner von KBraun, on deathbed, said military would fake a UFO attack on us to get the anti missile approved, In my opinion, a Trillion \$\$\$ project.

Wrone told me to read "Day of Deceit" on Pearl Harbor. Makes very strong case that we knew exactly where Japanese fleet was, would not tell Admiral Kimmel. Kimmel is from Kentucky, I believe was a total scapegoat.

Jap fleet did not maintain radio silence, appear to have used low settings on their radio (my analysys), but was picked up on 2 Hawaii antennae and one on West Coast so we could triangulate.

Old story that FDR wanted Japs to attack us to get us into WWII appears to be true. Some documents still hidden from FOIA.

This book has succeeded in making me a total cynic! Affected me about as much as Whitewash.

As far as mom, I do visit every day. She is only about 600 yards from my office. She is a little better, but will never recover. On 2 doctor visits and even in the hospital, they failed to do an oxygen test. She was a smoker, and low oxygen put her in a coma one year ago. She came out of it, but has never been the same. So, make those goddamn doctors do an oxygen test!

It is as simple as checking the pressure on a ~~xxxx~~ tire, yet they did nothing.

Bush is doing as bad a job as I suspected. If there was justice-- his crooked brother Jeb would be in prison for voter fraud. As you probably know, they had an out of state company purge voter roles of felons, many black, but purged anyone with a similar name ignoring SS ~~ss~~. One old black minister was purged, had never had a traffic ticket. This last election has made my cynicism complete!

I do hope Gore runs again. If asshole Nader had not run, and does not in 2004, it is almost statistically impossible to see Bush winning. I like Gore, lost a lot of respect when Nader said there is NO ~~idg~~ difference between Democrats and Republicans. Nader let his ego get in way of reality.

Met Sen Jim Bunning at race track last month. Kided his son ~~ed~~ Dave that his dad sounds like a socialist when he talks about baseball. He laughed, said Union head Miller and ~~\*~~ Bunning are best friends. Bunning would be worth \$100 million if not for baseball collusion.

David, Fed prosecutor, now nominated for Fed judge. Affirmative-action for Republican white boys, not for poor kids.

The way of the world.

I'll write more.

Bill
