*Assassination of President John*

Dear Mr. Kelley:

*F. Kennedy*

I would like to request certain information from your office. Specifically, I am interested in the results of the neutron activation analysis done by the FBI in 1964 on the bullet and bullet fragments taken from the bodies of President Kennedy and Governor Connally. I would be most grateful if you could provide me with a copy of that analysis or a summary of it.

I appreciate your time and kind attention and look forward to hearing from you shortly.

With kindest personal regards, I am

Sincerely,

W. Henson Moore

Dear Congressman Moore:

Reference is made to your letter of February 25, 1976, wherein you requested the results of the neutron activation analysis conducted on bullets and bullet fragments in the President John F. Kennedy assassination case.

Enclosed are two pages of an evidence listing so that you may identify the specimens, a three page compilation of neutron activation results and fifty-four pages of data which give rise to the results listed in the compilation.

I hope this material will be of assistance to you.

Sincerely yours,

Clarence M. Kelley
