

Johnson, Nixon and other Big Names —All in the book including the dames!

Despite desperate attempts to suppress this book, nearly 70,000 copies have been sold in seven weeks!

Although both author and publisher have been threatened—one at gunpoint and the other, legally—a large number of booksellers, news commentators and reviewers have rallied to their support—and are making certain that THE WASHINGTON PAY-OFF by Robert N. Winter-Berger is neither strangled by the censors nor blacked out by omission!

Thus, although Jack Anderson's taped discussion of the book was totally cut by a leading television station, his associate, Brit Hume was able to write a front page review for the *Washington Post's* Book World in which he said: "This startling account . . . is a sensation!"

Thus too, although *The New York Times* has neither reviewed it nor included it on its "Best Seller List"—THE WASHINGTON PAY-OFF has already reached 4th place on *Time's* list.

What manner of book is this that can stir such controversy? Why has THE WASHINGTON PAY-OFF made so many angry enemies in high places—and gathered so many loyal supporters among those who are deeply interested in the future of America?

Some of the excitement you'll feel when you open the covers of THE WASHINGTON PAY-OFF is suggested by Alex Schecter's review for a Manhattan weekly that serves the Wall Street area:

"It isn't often that I read 328 pages in about three hours," writes Schecter, "but once you get into THE WASHINGTON PAY-OFF, you're hooked. Reading this book is like reading 'The Godfather'—but here all the characters are as familiar as your own Senator!

"If you've never heard of Richard Nixon, Lyndon Johnson, Senator Javits, Mayor Lindsay, Speaker John McCormack, John Mitchell or Bobby Baker, this book is not for you. If those names ring a bell with you and your cup of tea is graft, corruption and a multitude of sins, this book should be on your **MUST READ** list!

"What Jack Anderson did for I.T.T., Robert Winter-Berger does for the leading politicians in our Country!"

Jon Ingersoll, writing in the *Denver Capital Ledger* says: "Winter-Berger relates from his personal observations in the Washington world. For five years he was a prominent free-lance lobbyist, buying the support of the most powerful men in the government for a host of special interest groups. THE WASHINGTON PAY-OFF is a carefully detailed account of the corruption he witnessed and promoted. The book is an expose, a defense and a plea. . ."

Ferdinand Lundberg, author of "The Rich and the Super-Rich" comments: "There is enough material in this explo-

sive book to keep dozens of grand juries busy for a long time! It names front page names and gives dates and money amounts involved in every purchase of special privileges. There are in our Senate and House, and in our courts, men who will deliver anything as long as the price is right. One cannot help but tremble for this nation!"

THE WASHINGTON PAY-OFF by Robert N. Winter-Berger may well be the most important book for America to be published this year!

As an informed American, you owe it to yourself to read it. As an enlightened person, you owe it to your country to see that as many people as possible know about this book!

Your local bookseller should have copies.

If he cannot supply you, you may obtain one by sending \$10 (we'll pay postage and handling) to us. Your copy of THE WASHINGTON PAY-OFF will go out to you by return mail.
