Dear Les,

Sorry I don't have time to go into what happened in court today in the King FOIA case but we again angered the judge over the DJ's dirty tricks and she demanded some action from them by Friday and set another status call for 10 a.m. a week from today, the 17th.

The House assassins are much worse than I'd feared and I fear much worse than I was able to indicate to you.

When you have finished with the tape will you please send it to Mrs. Carol Pepper, 523 Franru (right) Lane, St. Louis, Mo. 63125?

I think she should have it.

While I don't think Carol will ever get over being a nervous person, and I do believe she was this way prior to the notoriety from Jimmy, I do have the feeling, as I think Jim does, that she has decided the only way to get along with these terrible people is to stand up to them.

John comes in at the end of the second or blue side. He was a talker last night! I hope you can understand him through his speech impediment.

Spoke to Carol briefly this morning, not John. The wretched committee still ~~did~~ did not have a check for her but did give her a voucher to fill out for this trip. I suggested that she wait until she gets home and include the cab to the airport and the parking charge in St. Louis, that she xerox it and the checks she finally gets.

I don't know for sure when the Merry-Go-Round story on the Woretta-Abernathy tapping will appear. I hope to have more of this kind of things relating to the Ray s before long. There was a black bag job on the Peppers. I have what amounts to the orders for ~~the~~ ^{it} and records that are a reasonable basis for believing there was tapping and bugging without authorization, ~~is~~ performed on the quiet while permission was being sought.

Excuse the haste,
