Dear Dr. Nichols:

I am in receipt of your undated letter and Western Union message dated February 19th regarding your request for information relating to investigation conducted with reference to the assassination of the late President John F. Kennedy.

With regard to your request described in item one of your letter and the request contained in the Western Union message, I wish to advise you we are presently in the process of attempting to identify and isolate laboratory data that would come within the scope of your request. I will be in communication with you further in connection with this portion of your request.

<p>Received your letter March 12 regarding my certified letter 527038 appealing FBI Chief Kelley's denial of requests contained in my certified letter 792591 received by him February 20 and in Mailgram delivered February 19. Classifying my appeal as moot because his letter of denial overdue crossed with my letter of appeal is unwarranted. Consider said appeal active as date of receipt viz., March 11. Importance of requested data too great for concealment.</p>
