FORWARDED

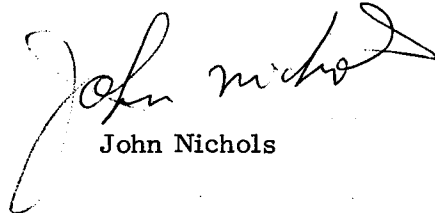

Dear Mr. Weisberg:

Your performance on the Joe Pyne program last night was superb.

If you went to the west coast to tape this you should have stopped off here in Kansas City where I should have been delighted to have you as my guest.

Shall write you fuller within two weeks or so.

Sincerely,

John Nichols

As soon as I can arrange for the financing of this book, which may not be soon, I'd like to make copies available to you and people like Wecht, if he is interested, for your own uses. Also, there are a number of things I'd like to do simultaneously, including legal, that maybe we can get a chance to talk about.

While there is great hazard in doing public things with the autopsy information, there are also great possibilities if handled properly and responsibly. This cannot be separated from the rest of the story, which I fear is Halpern's error. And you pathologists just do not have the time to master the rest of the data that is available.

One other thing I had considered is what I did with the first book, turning out a limited Xerox edition. However, this has liabilities, including the wasted cost, which is not cheap. It then presents me with the prospect of having my work quoted, with or without permission, by those who can sell it when I cannot.

In any event, thanks for your note. I hope we can get together soon, and I'd like very much to be able to visit with you.

Sincerely,

Harold Weisberg
