CAN'T WIN 'EM ALL--Jerry Weiner, the attorney recently catapulted into the news in the Gordon Novel "flap," also has had time to practice his profession for others. Recently, Weiner won a murder case in North Carolina for a Worthington girl charged with complicity in a crime with an older man. Last week, a Franklin County Criminal Court jury found Harry (Binny) Levine Jr. innocent of murdering his mother. Next day, Weiner, who was co-counsel in the Levine case, showed up in Municipal Court on yet another item. His client lost, however, and was fined 10 cents - for throwing a cigar butt on the sidewalk. Article "Flip" But Typical.
