

USA - has legalized MURDER
May-14-74

Sir: Anyone with good sense knows that Kennedy was shot by rich wanting to carry on the viet Nam war on a larger scale. I never beleived the Warren Report. Firsty because it was never re-leiced ~~it was never re-leiced~~ complete. That tells the story right there. We should have demanded it's report released complete. But you will never have concern for a citizen in this country again. why should we when murder & abortshion are not punish-ed. abortshion is just another murder 1st degree.

This country will come tumbling down soon. It deserves too.
