## Dérer BiLI,

Heving beon ternporarily evictec from my of rice (what a luxuryक) by the eIectriciam, I wribr you $2 s$ I did sieve tomxatimazmi jcEterdey. I h vo hiard
 as though I'l. 7re leaving sbout $11 / 1$ on this brip. As I get mone cetaila 1'11 Let you knowe

Sö, I think Lo: Arşales shoula be my lect etop if I can get off about II/I.
Pewallax also vola me they are cetting a inixco reaction fron wholeanlerg and bookstores. Some ferl the subject is dead and are reluctant. Recall I once Nootethati I Man begun to min into this and encouraseg Ha gie to hasten her book, if it rean a privets printine? Jhe New Orleens prolescier wan intimicatec by the frivoluus suit Rxinguier filea egaiust me. Te has rofused to handle pw, even thougin he mes essured by his own lawyer there is no libel in it, and he has consistently failed to answer any communication on 0 in N.O.

In LoE Angeles end Son Francisco there ere holcasiers who are atocking the book. We can ciset copies from them. I eclece steve to eive ma a number ond I'd mako arrangements for the to bemacie aveilable to him (meaning all of you).

Generally apeokin, I am certein there is e strons meijin tide scainst vis.

 is, in this firm's opinior, e good chance of working something out). I think thot if I can get a little a tbention, with whet I hve, parma, if I cannot burn the tiae, I enn stop it.

My firet two TV empmosches have vecn on the plus ride The tor Chicego shov, which wenter me months ago and I could not affiord to fly out (thet problem is now more severe, for $\mathrm{J} \in \mathcal{1} 1$ hasn't paid, hasn't accounted, etc.), will give ne \& rominas and will belk to the kun chow, In Boltinore, iney'me bookad throurh Ghis month but will teke me the firet onening we hoth hevse with tro out of two, I am a little encourager. I know Bob Walsh at KABC. I think he will help if he con. Ho was in Boston when I nst him. I sugsested to Steve that he seg help of

Welsh in my name. I sent all theothers to whom you introduced me copies of
 pertinent, a few lending themselves to detective-story handline, and an endless supply of documents. I think it is possible; as I did before, to give each show that will have me something different. By the way, I also know Steve Allison, for whom I did several shows when he was at UWDC, Washington. It is on his show thet T finst thet I first challenged Schilier to face me, with a control by means of which I could stop his record at every lie and distortion. Allison is a toughie. My rage when I heard those slanders of my friends for the first time was so towering, my tongue so sharp steve backed off and would't fight. He got on my side and stayed there, although I had heard him earlier that night sayine just what would happen to tie. I thinkhe'll have me on his radio show.

I have never made any additional aproach to the Time-Life Bakersfield
 station, fellow nemed Winston, who lest year wanted to fly me out. He hes an idee oswald was an agent, cominc from a kook friend who had been on intmpans ho Office at the Moscon embascy. Only he thinks a Russian agent.

I'll heve to be finding a lot of time to be making clear photocopies of the things I'll be taline. Glad to havethat 3 machine now. If any of you has
 any speciel interest in that you'd like me to bring, please toll me. I expect 'to have one bag of documents, pictures and tapes, that old leather one of mine
 that accordians out. I hope to be able to go over the iebeler tapes you have
 sentime and dub out nicehunks to piay and comment on.

Mail time. Nothing new except that Shirley Martin's Vickie wes killed in an auto acciaent. Best to everyone,
