Odio-CD1546:208-10, etc.

After seeing this recollection was triggered and I checked and found some of my Castorr interviews are transcribed. I told JMS not. Now with this I will want extreme care and no disclosure to anyone, use only for leads and infor, and the two of you only. If I have only one copy, I'll make copies here and not risk that one in mail. I've told you enough in the past for you to evaluate. They also referred to Alentado, know him, etc. One of the more interesting things here explains how Ray could have provided the lead, and this seems to mean that JURE did, in fact, tell those who saw her how to find her. Hall fell far short of saying not him. But he, Howard et al and JURE do not seem to mix. Yet unless this does mean that those cats are the guys who saw her, how explain the late FBI work leading to them?

That was a very late date to beint rviewing Marcela Insua (also menti ned by C's). She knew Odio wll, and all the other Cuban refugees there. This interview was 10 months to the day after first interview with Odio, which had to lead to this group. There has to have been some reason for that long FBI delay. This may have been triggered by the belated WC request for a checking on the Odio story. That Heitman went here right off confirms my above. He knew. As he knew what to avoid. I may be wrong, but I also think the Alentado address is fairly close to the area of which I have a dim recall Buddy Walthers had some comment about Cubans in a house.

When I can, I'll make a list of the Odio docs I have and will send. I'd appreciate any not listed, since you say this now completes your quest. I'll send these to JMS, so please include them. I think you should now ask for interviews with or about these people, and include Father, for he ran the outfit, Marcela just helping him, until he died.

HW
