LEE HARVEY OSWALD

By letter dated August 28, 1964, the President's Commission requested additional investigation concerning the allegation of Sylvia Odio that she observed Lee Harvey Oswald in the company of two Cuban or Mexican men sometime in late September or early October, 1963.

Odio, in her testimony before the President's Commission, has claimed that three individuals, two possibly Cuban underground members or Mexicans, and Lee Harvey Oswald, visited her apartment in late September, 1963, to solicit her aid in the underground.

Odio is alleged to have told Mrs. C. L. Connell on November 28, 1963, that Oswald had spoken previously to small Cuban exile groups in Dallas and had been well received. Odio is also alleged by Mrs. Connell to have mentioned that a friend of Odio's had called a Cuban friend in New Orleans who warned the Cubans in Dallas to beware of Oswald, as they considered him a possible double-agent trying to infiltrate the Cuban exile groups.

There are attached the results of interviews with the following identified individuals:
