

9/17/98

Dear Dale

Please excuse the haste, the brevity of this note and the package for Whitewash IV. Jerry has been too busy for a week to get me some boxes and at the xeroxing place the absent minded professors let them pretend they had not boxes, as they have, after many complaints, including mine for several months. Cheap boxes in but they's have ^{kept} the pages from getting dog-eared, As I hope my primitive ~~promissilge~~ effort.

I started taking what was to be copied in their competitor's box and asked that they keep and return what they copied in it. Got through to them!

Perhaps this is a bit mixed. The ~~conditions~~ conditions under which I rushed it were far from the best.

Will seem^s to be doing well in the physical therapy program at the nursing home the hospital is using for that. They get in much more than the hospital could!

I heard today that Johns Hopkins agrees that I need dialysis or some related form of cleanings the kidneys and I hope that one is possible because the others are now beyond Lil's and my physical capabilities and I doubt we can find a nursing home that will let me continue with my work and have adequate space for it.

I'm annotating the Russo stupidity, ignorance and just plain crap but not doing a manuscript on it. Not worth it.

Thanks, best, and with hope,

Harold
