Dear Clay,

As I think I told you, when I told Dave Wrone about Hersh-It Journalism, he was reminded - of what I'd forgotten entirely. He said I should consider using it as an epilogue and I'll do that. As an epilogue it is an appropriate foreword because it saw the real Hersh so many years earlier, when others did not. The Hersh of Hersh-It Journalism.

I send it in advance of the little I'll do with it it. What I⁴ll do will include quoting Anson, that page enclosed.

~~IT TURNS OUT THAT~~ Hersh-It journalism is not new to Hersh, the Hersh of the dark side and the unbridled hatred of John Kennedy. And of the willingness to believe and trust and use obvious liars,

As he did in The Samsen Option.

So, he can tie his own shalace.

I do not expect to make any changes (other than of typos) in what I wrote about him five years ago but I will add a little before and after.

I may wait until I read and correct what you return. Probably I should because my mind does not hold things as it once did.

Jerry was glad to hear from you.

Thanks and best,

Hardy
