Dear Clay,

## 6/9/98

Your 6/1, mailed at Bocatello 6/3, got here yesterday with inadequate postage and torn open without having been sealed with tape, as I'd have expected of you. I enclose the envelope. It has some writing I can't make out that may be your explanation. The envelope was more than three punces, rather with enclosures, and it had a 32¢ and a 20¢ stamp only. All that kept it close was the partlyclosed clasp\$, which was bent.

I started to write you yesterday. I enclose that. I was exhausted after a little walking to the pharmacy after the physical therapy.

McKnight was over, briefly, now that his extra work at achool is past and he is busy catching up. He told me that you had been in communication, computer.

Maybe what I sent you supplied the answers you want on the Aanadian sources. I do not want to get involved with the Twymans and Fetzers of the nuttiness, but thanks for the offer. I was not "agitated" about him or Lancer. Sorry if I gave you that impression. Wrone can tell you more about that Evica/Drag/Rose/ Third Decade insanity because of all things, Evica ask for that paper on me as a government agent of Dave!

If you sent but "one diskette for the Hersh and Donahue/"enninger manuscripts" perhaps that explains why I've not been able to find what I thought you'd sent, the diskettes I general distribute. I hope to be able to do a little more searching and if I do not find them I may ask for a few to distribute.

Neichter was sulent with me for a month. Worried me so  $\perp$  pyhoned him. It is just that he has been busy. But if you do not get the Waketh, nudge him and me. But give him a little time,

I did a long am manuscript con Hailer's mistitled Oswald's Tale but the corrections on the retyping were abandoned by the one doing that. It is presently a big stack on the table. The rough draft wilk with backstopping takes up a full file box, I think 14 inches.

That little scrap of paper that fell out of the envelope was a note from "il to me. I'd put the letter aisde for her to read and she put that note on it.

Anythony Lewis has always been hung up on Earl Warren and that may be enough to explain how he can write such i crap and believe it.

I trust nothing that  $\beta$  rown says but it is interesting that he now has a killer on the scene where, I think, if he'd been there to kill he would not have been.

If Wrone does not have a copy of The Legal Proceedings let me know. I have some in the basement and can ask Achinght to retrieve one. But I do not know what happened to my copy of his bibliography...Things changed out there when the chancellor left. Thanks and best, Dear Clay.

I have asked Wrone to send each of us a printout of what he retyped of the Posner prostitution. I think it may help you to be familiar with the earlier part and I'm sure that can help me and because I am not into another manuscript now I'll be able to read and correct.

Perhaps before it reaches me I can find some way of anking a little space and perhaps also find some of what I've misplaced. Jerry will have a little time every now and then can will move to the basement what I do not now need and he can make room for there.

What I refer to as stolen in the Posner ms. is not misplaced. With some the empty file filders remain and I've had no occasion to touch any of that for some years and it was not where I could or would have mispleed it.
