Dear Clay,

6/23/98

Your letters of the 15 and 19 here yesterday. Thanks,. With the disks. On the disks, and the paper and postage, etc., would you please let me repay you? Unless there is a real symplus of disks I'd rather hold any extra in the event of need for it.

It is better to send me the printout and let me pay the cost ebcause it is not always possible for Jerry to do it, or ^Barb, for a while. It will be five days after I got them that Jerry can pick the disks up.

The man I know did some steating, and he had no chance to steal some of what is missing, is a Baltimore cop named Richard Waybright. He was here working for "ivingstone. He did not steal for "ivingstone. He was to copy for him. What led me to knowing that he was working for Lifton also, when "ifton and "ivingstone are enemies, is that something he borrowed and did not return was of interest to Lifton only. None of what was stolen was or will be beturned.

I do not remember seeing the Brice article.

I use the license I earned to forgot too much. I have no recollection of those disks being taped to the box. Now I know that they were not taped together and that each one is complete. Thanks!

The Mailer is a long annuscript. It was retyped and I lost that help when the corrections had not all be made on the disk. It is a large stack, the rought firaft, the retyped copy and possibly some of the retped with corrections.

I have forgotten the title of the Newman manuscript and there is an epilogue to it. Ask Dave for copies. We has the disks. So I am surc does Neichter, who may or may not be able to do it easier than Dave. Whose was on the Roday show yesterday.

I know I have some copies of the Wrone FOIA book. If you do not get it from him soon tell him not to bother, let me know, and when McKnight is here he'll bring one up from the basement and I'll send it.

You refer to assassination bibliographies and how fine Dave's was. There is the ugliest of them all in Twyman's Bloody Mess. Awful stuff that has no Welevance and cry stuff that is supposed to be and isn't assassination.

I've started a critique of it. The book, not the biblio.

I gather from McKnight, who had asked me to get a xerox of it for him, that he is getting some kicks out of Faking Kennedy: WeWith Hershelt Journalism. If a published had that and edited it, it (gould go, I think.Do well.

Wrone has lost Much time with the wedding, which his in Maws did beautifully, so may it would be better to ask Newchter for disks of the Newman.

Thanks and best,
