

6/27/98

Dear Clay,

I do not recall ever getting any word that it was more pleasing to get than the fine one you sent me for Fathers Day. Wil and I both read it several times and told each other how much we liked and appreciated it.

It came yesterday. It was postmarked the 22d.

Dave Wrone is here and right now he is making copies like mad, of what I'd suggested that he copy last time he was here.

If your papers have carried any stories on the planned commercial availability of the total Zapruder film, the plan is for MPI Telefilms to be the one who makes the copy to be retailed. They are including the material between the sprocket holes, which can be very important.

What effect that can have on the government's plan to get the film I do not know. I've heard that is to be finalized in or by August.

The film was not included in what by executive order of the then attorney general, Ramsey Clark, Federal Register for 10/31/66, took possession of.

It went to court to prevent Marina Oswald's selling of that rifle. and it allowed the Ruby handgun to be sold.

Many, many thanks and best to you all,

Harold

For Wrone, anything he wants and let me know the cost, please.

And thanks.

Harold:

While you never had a  
son, you have many who  
think of you as the father  
of the construction culture  
community. Metaphorically,  
you are a father, grandfather,  
great-grandfather and great, great  
grandfather many times over.  
Your memory and heritage will  
be celebrated by your "progeny"  
for many years after the milk  
and JFIC cases are "Solid"  
one and for all times.

Thanks for the years  
of solid fatherly advice.

Happy Father's Day

Clay + Jon Orilucci
