PRESS RELEASE

General Donald A. Donaldson's registered receipt for his second letter to Senator Frank Church.

This receipt is not for the letter mailed to Senator Church on September 15, 1975. It is the receipt for the same letter mailed some four months later. The second identical letter was mailed and registered because Donaldson is reported to have received no reply to the September 15th missive.

The receipt shows the second mailing to have been made on January 16, 1976. The country of origin is Ireland. General Donaldson's wife lives in Ireland.
