 wrope wita it, to Kwaler's prior knowlwdge wrom with it. He did not inuicate it was this story but euveral wiokt ajo ho did phowe aie on a JrK story, to abk if I keew a name not in the story.

The roasom for this poutscript is that then in the mecond apook leak of what is covered by my lomestandiug ad ingored HOIA requeste. The first was the Fost atory of $11 / 13$ miladng a secret "ouver weto. It in a mun-wtury. oular tuld me they are mot proud of it now, a atmement not supsorted by hi。 today"s atory.

With the surveillunoe I heve low had suok an incluaive roquest with the CLA. So lome it in pant thuir olaimod lacs. They tried to lumpit in with my incluaive requant. I rejuoted thin, gwing I did not unat to mit until whatever tine in the diatant future they would awit to haviug complated whataver they ducided to review.

1 kiew of these inturowets. When a friend filud as ixadequate ruquest I backetopped with min mequato one although I mad ulroudy incluis. 1t. Because Schweiker almo bown und didaothing I nwio a separate request. I sald I wanted it fastor.
rine ulwo included the interowntion of Uawald'm mail, oortain when he was in the USSR.

While I have mo way of kaowiag whether thure was asy auch oowveration I do keow that the thiag ia utteriy irratiown.

The aubjwct of the $11 / 13$ lunge is an $\mathrm{F}^{\prime} H$ rocord.
Jiu telegraphed Lovi $11 / 13$ mad hua had no rewpomes. tiven aoknowledgement.
Earlior in aflidavitd and bustauial6 $9 / 16$ ant for sove. al daye in $0.1 .75-1996$ we wont into this. We had nupervisory forl masest on the stand and I testified. They have roviawed these files threo tituen as of them without ruspondinc to my raquesta that go back to 1968 . I towtified to this without wen pro forwa oroas edraidation. By them I had a liat of thane raqueste mad..

I have writton Kalley, wovi and Shom repeatedly about this without reapomes.
 faotured - buoklog not passed with both ugencies and DJ.
