To Lou Ivon
From Harold Weisberg
Oswald's addressbook

About a year ago I gave your office copies of this addressbook that should be in your files or those in the "Archives". There are two FBI reports, the first 30 pages, the second five. They are identified as from CD 205 (pp. 671-701) and CD 385 (pp. 278-83). This data is of current interest in that it relates to certain New Orleans aspects in which your office has just developed an interest.

It has always been of interest to some of us. We have now developed new information and are working on it. It would, therefore, be very helpful if you could have copies made as soon as possible and send to Paul Hoch, 2537 Regent St, #202, Berkeley, Calif., for him and his associates to study. This will obviate getting expensive copies from the Archives or my taking the considerable time to use my copying equipment, which is not nearly as rapid as yours (and costs much more).

If for any reason you cannot do this, would you please let me know so I can utilize one of the less desirable alternatives?
