THE STATE OF TEXAS
COUNTY OF DALLAS

BEFORE ME, FRANCES DOCK

a Notary Public in and for said County, State of Texas, on this day personally appeared J. L. Popplewell

Who, after being by me duly sworn, on oath deposes and says: My name is J. L. Popplewell. I entered the Dallas Police Department January 11, 1957. I have been in the Service Division seven and one-half years. I have worked the fifth floor jail most of this time. I was on duty the 22nd and 23rd day of November, 1963, working 2:30 p.m. till 10:30 p.m. The 23rd day of November, 1963, at 3:00 p.m., I was assigned to guard the area in front of Lee Harvey Oswald's cell, watching all of his movements to see that he didn't hurt himself. About 4:00 p.m. Lt. Lord called on the jail phone and instructed me to put Oswald on the phone. Oswald asked the operator for two telephone numbers - then asked me for a pencil and paper while in the telephone booth. I tore a small piece of plain paper, about two by three inches from the telephone record sheet that hung outside the telephone booth; then handed this piece of paper and my pencil to him. Oswald wrote a number on this paper and returned my pencil. Then he asked if he could call later. Oswald did not get his call through at this time. I called Lt. Lord and informed him Oswald didn't get his party and wanted to call again later. About 8:00 p.m. Lt. Lord came up to the jail and told me to let Oswald use the phone. I was instructed to step back away from the phone booth so the phone call could be private. From this location I watched the prisoner talking to someone. He used the phone about thirty minutes. I asked Oswald if he got his call through and he answered, yes. I then returned him to his cell.

About four months ago on a Monday, I received a call from an F.B.I. agent who wanted to know about a slip of paper with a phone number on it. This was supposed to be in Oswald's pocket when he died. The agent asked if we allowed prisoners to keep phone numbers on their person. I said that if a call wasn't completed the first time, we could let them write the number down and keep it for a later call. The agent asked me the size of the paper I might have given Oswald to write on. I told him it probably was one torn off of a telephone record sheet hanging outside the telephone booth; that the paper was plain, unmarked, about two by

THE STATE OF TEXAS
COUNTY OF DALLAS

BEFORE ME, Francis B. Dock

a Notary Public in and for said County, State of Texas, on this day personally appeared
J. R. Stacy

Who, after being by me duly sworn, on oath deposes and says:

My name is J. R. Stacy; Badge No. 561. I have been employed by the Police Department since August 4, 1947. I have been in the Service Division for the past fourteen years and have served as Jailer in the Jail since September 11, 1954.

On November 23, 1963, around 1:00 p.m. Detective M. G. Hall brought Lee Harvey Oswald's mother and wife to the fourth floor visiting booth to visit Oswald. He had a visiting pass with Marguerita Oswald's name on it. He asked me to let both the women visit him. I placed Oswald in the visitor's booth after he signed the visitor's pass and I signed the pass as Jailer, at 1:15 p.m. Detective Hall remained outside by the visitor's booth until the women finished talking to Oswald, and then he took the women down on the outside elevator. Oswald was then returned to the fifth floor.

This is the only time that I personally handled Oswald to my knowledge.

CD1444: certain enclosures re phone calls.

Before getting these copies, I had suggested, based on casual examination in the Texas file, that close study of the kind Jim does so well might be fruitful. I also suggested it is a passing strange coincidence that, with LHO charged with both crimes, allegedly, with a lapse of five hours or so, the two arraignments were numbered consecutively. One of the things we might, eventually, get to is the arraignment of others between these two, which would be something more substantial than Drinn's Mcarasy (GD5).

I think we should not assume the fact these pages are not in proper sequence is mere sloppiness. They normally would be in order, and I am willing to believe that if they are not it was design, not accident, thus there must be some meaning to the design.

As I have indicated elsewhere, there is reason to believe the jail phone goes through the switchboard, thus is readily monitored, and there seems to be corroboration for Curry's statement LHO made a half-hour phone call (presumably he never got anybody but Ruth Faine), in which it seems the SC had no interest.

Do we know what is in the other enclosures? They may be in the rather stripped and barren Texas file.

Perhaps Mary can help. If we have a list of who was charged with what 11/22/63 beginning 7 p.m. until, lets say, the next morning or the first editions of the pm papers of the 25rd, we have a good beginning. If need be, I'll write Henry, but I'd refer not to.
