Photocopy of handwritten letter dated 11/8/63

Specimens received 4/13/77 from SAC, Houston under cover of communication dated 4/8/77 (D-770413047 MS):

- K1 One original and one carbon typewriting sample taken from SCM typewriter Serial Number 65E184870
- K2 Typewriter ribbon from SCM typewriter, Serial Number 65E184870

Result of examination:

The photocopy shown in the Item 2 photographs does not reproduce the handwriting on the original document with sufficient clarity of line detail for adequate handwriting comparisons or any definite determination whether that handwriting was or was not prepared by LEE HARVEY OSWALD, whose available genuine writings consist of a large number of documents previously submitted in this investigation. However, from such comparisons and examinations as could be made, significant similarities in letter formations were noted as well as a number of unexplained handwriting variations. In the absence of the original document, reproduced in the Item 2 photographs, or a clear photograph of the original document, it is probable that a copy can be made which is similar to the handwriting of the writer of the questioned text.

It was determined that the typewriter used to prepare K1 was not used to prepare the typewriting on the envelope shown in the Item 3 photograph.

Items 2 and 3 are retained, as well as photographs prepared from the ALSO SUBMITTED negatives. The ALSO SUBMITTED items and photographs prepared from the ALSO SUBMITTED negatives are returned herewith to Dallas. K1 and K2 are retained to facilitate any future examinations and comparisons which might be desired.
