

451, Will Cuthbert Brady, Oswald's literature dist., Dolores

This is not precisely what the earlier report says of
it does not say he might be able to identify the people in
pictures but knows Cubans, which is not the same thing.

Also, he did not "move" to the Philippines. He was
kicked after his second morals-law violation with a young boy.
The series of informants is federal, the informant knew
him. The FBI also should have known better, for it is part of
the reporting department of the government.
