

Days Before Kennedy Slain

Oswald Threat Against FBI Unreported

From Enquirer Wires

WASHINGTON—The Federal Bureau of Investigation (FBI) disclosed Sunday that Lee Harvey Oswald delivered a note threatening one of its Dallas agents days before the assassination of President Kennedy and that the visit was never previously reported and the note was destroyed.

"FBI INQUIRIES to date establish the note contained no reference to President Kennedy or in any way would have forewarned of the subsequent assassination," FBI Director Clarence M. Kelley said.

But he said the agency is investigating to learn more about the incident. The FBI said it learned of the Oswald visit as a result of information provided by the Dallas Times Herald.

Kelley said the note was a warning to an agent who had visited Oswald's wife, Marina, as part of an investigation. It warned the agent to desist from further interviews of Mrs. Oswald, Kelley said.

Oswald has been identified in the Warren Commission report as the sole assassin of President Kennedy on November 22, 1963.

THE TIMES Herald said Sunday

that Oswald was not placed under surveillance after his visit to the FBI office. The FBI visit to the Oswald home was described in the Warren Commission report as a routine check of persons who lived in the Communist bloc. Oswald and his wife Marina lived in the Soviet Union in the early 1960s.

The Times Herald story said the agent in charge of the Dallas FBI office at the time was J. Gordon Shanklin. Shanklin was quoted in the story as saying he never knew of the threatening Oswald letter.

It said Shanklin identified the agent who visited Mrs. Oswald as James P. Hosty Jr., now an agent in Kansas City. "I am not in a position to say anything on that," Hosty was quoted as telling the Times Herald.

The newspaper quoted a source as saying, "I don't believe that (J. Edgar) Hoover or Shanklin ever knew of the existence of the letter. They would have gone through the foot."

KELLEY'S STATEMENT said the FBI inquiries tend to corroborate that the Oswald letter was destroyed shortly after Kennedy's assassination. "Inquiries are continuing to determine the full facts concerning the handling of this matter," he said.

The Times Herald said Kelley's investigation was aimed at the Oswald visit and possible criminal violations in connection with the destruction of the note and failure to report the incident.

An FBI spokesman in Washington refused to characterize it as a criminal investigation.

Kelley said Attorney General Edward Levi has been informed of the progress of the FBI inquiries from their inception.

THE TIMES Herald said Oswald's wife was contacted by the FBI on November 1, which was 21 days before the assassination. Another attempt was made on November 5, but was not successful, the story said.

In the first visit, "Marina became frightened during the interview and Lee was not there at the time and the agent left, apparently because of her inability to understand English well," the Times Herald said, quoting a source.

"I my judgment, this information coming out will blow the lid off the whole case," the paper quoted its source as saying. "That was a real screwup, I guess. We did not tell the police or other protective agencies about it... It seemed routine at the time of the visit."

"Nuts and threatening mail come in all the time. The letter didn't threaten Kennedy."

SCHWEICKER SEEKS INQUIRY ON KENNEDY

WASHINGTON, Sept. 7 (AP) Senator Richard S. Schweiker, Republican of Pennsylvania, is seeking to have the Senate Select Committee on Intelligence take a new look at the assassination of President Kennedy.

An aide to the Senator confirmed the plan today, and U. S. News & World Report quoted Mr. Schweiker as saying: "Up until a few months ago I was one who believed the Warren Commission's conclusion that Lee Harvey Oswald had acted alone. But all these new developments have caused me to question some of the commission assumptions. To me it's like a big, public boil that's going to burst." Senator Schweiker is sponsoring a resolution calling on the Senate panel, which has been investigating the nation's intelligence agencies, to look into the Kennedy slaying. Senator Schweiker is a member of the committee.
