WDSU films.

We know WDSU had appropriate films not used in the
evidence. We should try and see them. With Mrs. Stern's atti-
tude and NBC's policy, this may not be easy.

Alice, never a witness, had a very good look at one
of the men, and the film should have told which. Alice should
have been able to also.

No ethnic origin is indicated for the man with Oswald.

Bringer knew Ehara. Did not Ehara know him?

There is in what I take to be a homosexual pose in
these pictures. In any event, there is no reference to his
unusual pose.
