

2) Was sup Oswald not a real agent but
could have been converted to Cuban
Intelligence. Limits conspiracies
to Oswald as the assassin

Powers says mkt of Wld since no longer
material

I come on at 540. Almost end first
side first tape. Side ends
with his interruption of me

Picks up about 30 second side
She cuts me off

Darius's "response" 110 p what HSCA
said.

she then says that what I have done is
"typical of conspiracy theorists"

Then then 1/2 way starts again, with
Melanson

Powers then shifts away from her "by
focusing focusing on some part particular

4) He says LHO has long history of organized crime connections
Powers wants to know how much
got Oswald to do it

Dealt in large agreement but says
This theory does not explain W.C.'s
actions. He does see much involve-
ment but not limited to much

320 Dawson says this shows that the
word since for conspiracy is not clear
Agreement by Blakeney began with
belief that W.C. was right & had
done a good job.

Dawson 5/6/5 on LHO's ^{life} to create
such political documentation of it
summarized at 6/4/5 on Mexico, "core of
the story" ends 6/5, end tapes

Tape 2, side 1 "Confronted" Duran
She said she had never been shown any.
He showed her movies of LHO & she
said not the man. O m Come-Clark,
he was not in Havana at time he

6) adds into summary of when he talks
about dishonesty of CIA witnesses
John if set

Darwin tries to explain away what he
did & Melanson says this cannot be
explained away, as their destruction of
papers etc.

to take first call & then let Scott talk
goes into Alvin story Alvin worked for
Sammy's intelligence.

Call at 361. Murray in room. What when
HTRK was killed. says Lito's job
required info, & that required top secret
Then * now. He says in past work on Alvin,
goes into part of story Lito says about the
name was impossible with that info

Darwin to respond. Says that "old argument"
that Lito would not have found that
fact. She refers to HSCA's conclusions
then uses his same misuse of Dulgele. - He
could do better if he wanted to.

444 second call, from Chicago, re Lytton Jan,
supposed end side. She gives the question
to a real expert to answer - Powers!

Scott is what assassination means.
He then shifts & says JFK did not
know of and did approve killing
kill Castro which was not responsive
but did wait up for CIA

Dawson says the major conclusions of the
WC have stood up over 20 years "that
most people tend to forget"

Scott points out that if CIA conducted
other uses. Dawson says she will see
in support of if CIA, that hope was
depressed.

Addresses again to independent investigation and
performance of mostly advisory agencies & instead
of that Scott poses question of Jack Ruby's
alleged ~~and~~ mob connections through
me Willie says Ruby then FBI informant
and "talked up it" "alone" "what he
(Ruby) saw in Havana"

Beller says she still has not gotten an
~~answer~~ answer to whether the agencies
were honest.

10) I never say "it is a weather ~~type~~
phenomenon" Refers to observation of
"recessions" "
Damon says ~~that~~ "people underestimate
the ~~amount~~ amount of human
waste ~~in~~ into"

After laughs and says that maybe in 20
years they would all be sitting
around a table discussing the same
thing & then she signs off, with
white, and says it was made possible
by a grant from NPR satellite journal
(ends at 4:30 on tape watch)
