

1/13/78

Dear Mr. Parker,

Much as I would like to it is impossible for me to go into the kind of detailed explanations letters like yours of the 10th require. I'd be doing nothing else! And I would hope that you would prefer that I spend my time bringing as much to light as I can.

To the degree I can I incorporate what I know in books. I then go into debt to publish them so I can with them inform as many people as possible. I enclose a list. By far the best and most extensive source of information on the autopsy is Post Mortem. I have information on it in some detail in the first and second of the Whitewash series.

I recall the TV show. It was called Minority Report. Sorrym can't help.

I have about 10 Freedom of Information cases in various courts right now. I can't possible make copies of all these records for those who might be interested.

You might find a copy of the Warren Report in a second-hand book store. The price you cite, \$500, has to be for the appended 26 volumes. That is the lowest price I've heard quoted for them in recent years. All are out of print. However, there were commercial printings of the Report and they may show up second-hand.

Sincerely,

Cedar Grove B-9

Dear Mr. Weisberg,

I have followed the history of the Kennedy assassination for many years. I have read your fine publication *Whitewash I*.

I have seen you on a different number of T.V. shows. One

particularly was a show on WNEW TV that in 1965 on these subjects, you appeared with Mark Lane and a panel of 4 other people. I am anxious to obtain transcripts of this program. Would you have any means of acquiring this for me. I have contacted the TV station but have never received any response.

I have also heard occasionally that you are involved in a lawsuit under the name of

you are working on from the National Archives? Specifically, I want to find out about the autopsy. Will it ever be released?

Also, are efforts being made to secure the location of the brain?

Also I would like to find out when (if) Mrs. Kennedy's testimony in front of the Warren commission will be released?

I recall that Dr Cyril Wecht said that the brain was missing.

But could the autopsy information provide the necessary information to prove a multiple fire cigarette?

I really would like to be more informed about the assassination.

Could you direct me towards some different sources of information that would help me be a

more qualified researcher. I have tried to locate copies of the original Warren Report. However, I was only

able to locate 2 copies - one in Washington - for sale for \$500, which

I have no means to pay for and

one in New York with a million

Well, I thank you for your response,
which I am pleased to receive.

Very truly yours,
Robert S. Walker
