Dear Mrs. Post,

Your very kind letter has been forwarded from Spottstown. We move from there about six months ago.

I do appreciate your taking the time to write, as I do your appreciation, which I share, for what is involved in the integrity of our society.

Particularly because this is what is now so deeply involved, I believe it is more vital that we learn the truth and that those of us who may help establish it do what we can to that end. I will.

Again, many thanks.

Sincerely,

Harold Weisberg

Dear Sir:

I have just begun to read "Oswald in New Orleans" & felt I must do something long overdue.

Commendation is a fine job! I've read the others & this is another job well done!

From the day of the assassination I've known the whole thing "stunk"! But then we aren't supposed to know the stench of this CIA are we? It's almost

frightening to see this
uncovering exactly as I said.
You should tell of this.
I feel there is one person
just one who triggered
all of this & I can't quite
put my finger on the
exact one. Perhaps I sound
like a "nut" but really
this is something I feel
quite deeply about. Call it
woman's intuition or what
have you & usually I'm
right. So much for
this!

So many have taken
their time, effort & mentality
to expose this & yet I
wonder will it ever?

Can an invisible force ever
be exposed? Surely the
C. I. O. is this. We, the
public, are kept very
ignorant for I'm sure we
couldn't sleep at night were
we to know the truth.

After hearing Mr Garrison
on the Carpet show I
have no doubt in my
mind "you all have a
tiger by the tail" for God's
sake don't ever let go.

Sincerely
(Mrs.) Julia Post
