

Stockholm 5.3 1987

Dear Sir,

As I promised on the phone I send you a copy of Anthony Summers letter. I haven't got the books as yet. But no doubt I'll get them in the near future.

As you can see Summers has mistaken me for a female. Well, I have to admit that just by looking at my name it's hard to know. In Norway Kari is in fact a girls name. But my name is Finnish. My parents moved to Sweden when I was 4 years old. I have lived here since then, except one year 1960 in Australia.

As I already mentioned on the phone Summers statements about you are contradictory. In the acknowledgments to his book he writes: "Others who have helped unselfishly are: Mark Allen; .....; Harold Weisberg; ....." In the book he mentions your name among those who have helped unselfishly, but in the letter he says you didn't want to cooperate. A contradiction.

Although I in my letter to him stated that I wasn't especially interested in his book "Goddess", he still tries to sell it to me in the bottom lines in his letter. He says it adds a good deal more to our knowledge about the Kennedy brothers. Yes, a good deal more slime, I would like to add.

In "Subject Guide to Books in Print 1985-86" I saw your books and Sylvia Meagher's book listed under the

P.T.O.

proud headline "The U.S. Presidents Commission on the Assassination of President JFK."

Now I wonder what commission is this? Has it done anything of value or is it just a facade?

With friendly greetings

Kari

As I already mentioned in the phone conversation last year you are a very interesting person. In the past you have written "Other who have helped me" and "Mark Allen" in your book. I have read these books and they are very interesting. In the book you mention that you have helped me in the past. I am very grateful for this. I hope you are well and happy. I would like to see you again.
