# On The 30th Anniversary of the Kennedy Assassination, The Most Explosive Book Ever Written About His Alleged Assassin...

From the Previously-Unknown Perspective of Russia's KGB—

## Passport to Assassination

The Never-Before-Told Story of Lee Harvey Oswald, By The KGB Colonel Who Knew Him  
by Col. Oleg Maximovich Nechiporenko, KGB (Ret)  
Translated from the Russian

Even if the closed CIA files regarding the assassination of President John F. Kennedy were to be opened tomorrow, there is still one agency who had more contact with Oswald than any other...the KGB.

Among the hundreds of books written about President Kennedy and the circumstances surrounding his assassination, none has ever been written from the perspective of Russia and its intelligence personnel. And how could they? The KGB never made public the top secret files that were kept on Lee Harvey Oswald. Until now.

Here for the first time, within the pages of *Passport to Assassination*, the world will finally know what Lee Harvey Oswald was doing in Russia following his defection, and what happened during his subsequent trip to Mexico when he tried to gain entry back into Russia.

On Friday, September 27, 1963, ex-Marine Lee Harvey Oswald walked into the Soviet Embassy in Mexico City and met with KGB Col. Oleg Maximovich Nechiporenko and two other upper-level members of the KGB. In *Passport to Assassination*, Nechiporenko reveals for the first time Russia's dealings with Oswald and the startling new facts he has uncovered since.

Based on his observations and experiences with Oswald, interviews with key Soviet officials and his own exhaustive investigation, Nechiporenko answers the questions that continue to surround Oswald and his role in the assassination:

- Was it really Oswald who met with officials in the Soviet embassy in Mexico City? Or was it, in fact, an impostor, which is what the CIA contended to support their "lone Marxist nut" theory? And why was this individual armed?
- Why was Oswald so determined to leave the United States and return to Russia?
- What was Oswald doing during his 2 1/2 years in the Soviet Union? Had Oswald been recruited by the KGB?
- What was found in Oswald's Minsk apartment? And why did he try to commit suicide?
- Under what kind of Soviet and even American surveillance was Oswald?
- Why was it so easy for Oswald and his new Russian wife to return to the U.S.?
- What was Oswald's link to the FBI?
- Was Oswald the lone assassin? Or were there others?
- What happened at the KGB in the wake of the assassination?
- Finally, was the Soviet Union involved at all in the assassination of John F. Kennedy?

In this unprecedented book, Col. Nechiporenko brings to light formerly classified Russian intelligence information. While Western writers can only speculate on what took place during Oswald's "Soviet Period" and "the Mexico Trip," the truth is nothing less than explosive, and can only be found in the pages of *Passport to Assassination*.

- National publicity and advertising campaign
- Press conference to be held in Moscow upon release of the book, to be covered by major news organizations throughout the world
- Col. Nechiporenko will appear on a PBS special on Oswald's life in November
