Harold -

Am a little slow in answering letters.

Post-Dispatch had small article about James' aunt being thrown out. It said that the stuff was stolen (letters) from Jerry, not him. Therefore Jerry would have to sue Betty.

I'll send you a clipping as soon as I copy it.

As far as a radio goes that you describe - I think they are hard to find. Most radios today are either cheap "throw-away" or specialty radios such as alarm clock for traveling included on the radio.

The Panasonic Thin ones that you
are talking about have a small
wafers speaker and rather sound.
Nothing I know of is decent.

Find out how much Susan
and my files' would cost if
they do insist on charging
let me know. It might be worth
it.

Nothing else new here.

Oliver

Just this second
received article on Mark like Bullshit
from you. Looks like Bullshit
I'll let you know.
O
