

11-28-80

Harald -

Enclosed is Parole or Pardon  
request, whatever, please COPY  
and RETURN. Only copy I  
have.

Anything new?

Heard today on news that  
this request was turned down.

Thanks,

Oliver

Deflection  
what I  
had. ditto  
12/4/80

9/7/80

Y  
Oliver-

Thanks for the xerox of Jimmy's suit.

I hope it doesn't get thrown out and that it goes to trial.

He does have a legit beef and what he complains about is a common practise  
that is hurtful and ought not be.

If there are any developments I'll be interested.

Nothing new re other records, inc. on Susan.

Sincerely,

Oliver -

2/1/81

This past week we filed a Motion to Compel the FBI to process the Susan records and for DJ to act on my appeals pertaining to the withheld records on you. They've had more than enough time. I'll keep you posted.

I want to ask you about small, portable am-fm sets. I have plenty of radios but not one that can fit in my pocket as I walk. I had a very good and fairly small GE, not small enough for the shirt pocket but small, but it has developed a short. A battery lasts about 5 minutes.

More than 10 years ago Sony had a hot one about the size of a pkg of 100 cigarettes. I'd like to be able to get one that would fit in the shirt pocket but it isn't essential. I really don't have to have another radio. it is merely that I like to keep up on the news while I'm walking. I think I heard that Panasonic made a very thin one but I've not been in the stores for a long time so I don't know. Stores here need not carry what is available, only those that might sell most.

The little GE was great. Inside the large hospital I could get the CBS all-news stations in New York and Chicago at night, despite the steel and signal absorption. I also kept it in my pocket when I go out and bring the firewood in. (coat pocket)

Don't go to a lot of trouble but if you can let me know anything, please do.

Best wishes,
