

Senator Edward Kennedy
Chairman
Senate Judiciary Committee
United States Senate
Washington, D. C.

March 20, 1979

Dear Senator Kennedy:

In an recent article in the St. Louis Globe-Democrat, Senator Orrin G. Hatch of your committee was quoted as saying that this country is heading toward a "zero security society" and criticizes limitations being put on our investigative agencies.

During the early 1970's I worked for the F.B.I. as an informer and in 1978 I did the same for the House Select Committee on Assassinations.

Enclosed is a letter with attachments I recently submitted to the United States Attorney for this area, Robert D. Kingsland.

The attachments show what I consider to be an alarming disregard for civil rights by these governmental agencies in their investigative practices.

The enclosures are only a sampling of over 1500 pages of which I have not as yet had time to scrutinize individually.

As Chairman of the Senate Judiciary Committee I would like you to bring this letter and attachments to the attention of the entire Committee.

If you would like any additional information, my address and phone number appears below.

Sincerely,

Oliver Patterson
