

Oliver- thanks for your card of the 23rd. By now you know I have the Akai and because you are not here to integrate the whole mess the only help may be with tapes about which I've given you the best prices in Washington and here. Reel-to-reel interest is down everywhere because of cassette convenience. ...Enclosed is the Lane crap from this morning's Wash Post, probably not the whole story but I do not have the original wire copy of any other stories as of now. I know enough about the actual crime to be certain there is no basis for the newest "Lane fabrication. ...The committee has reactivated John's subpoena. No word about this from Jerry but I suppose they'll have him, too, and that Lane will rep. him. ...If I didn't ask you earlier: about may 1972 I was in St. L. and did a TV show with Stoner, Jerry, Harold Frank and a former DJ man. Stoner had a bunch of men around him, I thought as bodyguards. Were you one? Was Geppert? Any reports to FBI then? ...Hope things have cooled down and started to look up so you can resume your normal life again.

Sincerely, HW 10/28/78

Harold -
My experience with Pioneer
leaves very much to be desired.
For the same amount of money
and because of the chance I
would go with the Akai. Very
little interest in St. L. in R.
to Real. Believe it or not - on
Akai I'd have to get at a
discount store else!! Keep in
touch - let me know if
I can find anything else out.
